MEMORANDUM FOR: [redacted]

25X1

SUBJECT: Comparison of "G" Proposals

1. I have asked [redacted] and his assistants to make a comparison of the subject proposals in the light of their potential exploitation characteristics. This has been done and is forwarded herewith.

2. I realize that cost, operational parameters, timeliness, and other factors must also be considered before making a final decision. I trust, however, that this data may be useful to you in this determination. It goes without saying that we will do our best to achieve the most exploitation from whatever system is finally developed.
